

Farm Animal Problems

1. Terry is collecting eggs from the hens. He has 32 brown eggs and 20 white eggs. How many eggs does he have altogether?

2. a) Mr. Brown has 3 sows. Each sow had a litter of piglets this year. One sow had 11 piglets, another sow had 8 piglets and the last sow had 9 piglets. How many baby pigs does Mr. Brown have this year?

- b) Mr. Brown sold half of his piglets to another farmer. How many piglets did he sell?

3. Janet's father has a dairy farm. He has 25 Holsteins. He has milked 15 of them so far today. How many more does he have to milk?

4. Tom was gathering eggs from the hens. This morning he collected 36 eggs. How many dozen eggs did he collect?

5. There are 25 sheep in the pasture. 15 of them have been shorn. How many have not been shorn?
