# HEALTH & SAFETY POLICY STATEMENT

The Royal Agricultural Winter Fair (RAWF) is committed to the safety and health of all of our workers, contract and temporary personnel, and visitors to our venues and work locations. The continuing objective to provide safe work conditions and practices at all work locations and venues is our highest priority.

With our commitment to comply with all relevant *Occupational Health and Safety* legislation and current applicable Regulations and Standards, our primary focus as an employer is our responsibility for worker health and safety.

All managers and supervisors, whether working directly or under contract to RAWF, will be held accountable for the health and safety of all workers and any volunteers under their supervision. Our management team and all supervision will consistently work to correct or eliminate hazards that could cause accidents and injuries. Managers and supervisors are responsible to ensure that our venues, work locations, machinery and equipment are safe and that all workers work in compliance with established safe work practices and procedures.

All workers will receive adequate health and safety training in respect of work related hazards and their specific work assignments, to protect their health and safety.

Workers are also responsible for their own health and safety by working in compliance with *Occupational Health and Safety* legislation and applicable Regulations, as well as the provisions of our corporate Health & Safety Program, and safe work procedures.

It is our desire to protect all of our workers, contract personnel, temporary workers and volunteers, alike. We expect their commitment to work with us to maintain and consistently improve safety and health within our working environment.

It is our expectation that all of us engaged in RAWF activities will exercise responsible care in the prevention of occupational illness and injury to themselves and to others. We encourage our staff and associates to establish and maintain high standards of health & safety and to demonstrate that commitment by personal example.
