

# CLASSROOM TEACHING SUPPORTS

## From farm to classroom

## FREE experiential learning IN-CLASS or VIRTUAL

Our dairy education program provides interesting and unique lessons rooted in the latest Ontario curriculum. It offers an exciting and interactive learning opportunity for students. Teachers can depend on our program to help students acquire an insight into various aspects of the dairy industry and the world around them.

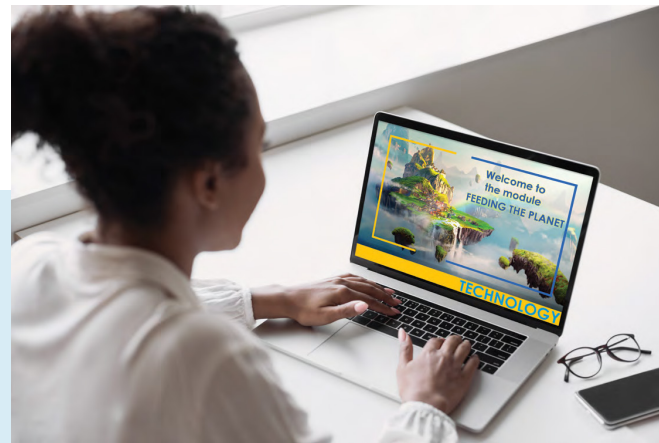

**English or French!**

- A 40 minute live or virtual class presentation by a trained dairy educator
- Lessons geared to grades K-8
- **Covers 3 core areas:** dairy farming, dairy nutrition, and dairy processing
- Topics cover a variety of subject areas including science, social studies and health

## FREE easy-to-use engaging eLEARNING

Our digital platform offers lessons and activities that can be used remotely or in the classroom.

- Designed for grades K-12 based on the Ontario curriculum
- From ecology and biology to genetics and food regulations, dairy farming is a great way to teach students a wide range of subjects.
- Topics range from nutrition and local farming to careers, technology and processing

## FREE CLASSROOM FUN right at your fingertips

DAIRYCRAFT is a dynamic and unique online learning tool available on Minecraft Education. It's designed to bring core concepts from the Ontario curriculum to life.

- 6 lessons for discovery, collaboration and creativity
  - Nutrition → Wellness
  - Animal Care → Stewardship
  - Renewable Energy → Sustainability
  - States of Matter → Inquiry
  - Smart Farming Technology → Innovation
  - Crop Cultivation → Growth

School  
Milk Program

## SCHOOL MILK PROGRAMS

**The School Milk Program (SMP) has been serving Ontario students with the essential benefits of milk since 1986.**

SMP is committed to providing elementary students with milk on a daily basis, so they can stay healthy, alert and ready to learn. Get your school involved today! Go to our website for more information or sign up for our newsletters.

Subscribe to our newsletter and receive:

- A curated guidebook designed to support program on-boarding and implementation
- Dedicated support for milk coordinators, including access to resources and ongoing connection with the school milk community
- A centralized hub for all school milk inquiries, with opportunities to request and receive relevant materials

## STUDENT NUTRITION ONTARIO REBATE PROGRAM

### Support for your free nutrition programs

Using milk rebates, meal programs have access to funding and more children receive nutrient-packed assistance.

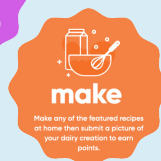

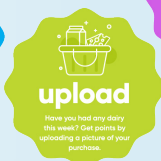

Contact your local Hub agency to ensure your school is on the program and start accessing your milk rebate.  
<https://studentnutritionontario.ca/programs/regions/>

## Join Milk Club - earn rewards

A reward app for kids that reinforces milk in school and provides a bridge to continue the learning journey at home.

- Watch videos
- Take dairy quizzes
- Upload your dairy purchases
- Play digital games
- Make recipes
