I appreciate there are always a handful of variations of needs that do not quite fit into the “move-in” box. We aim for the many, not the few. I apologize in advance, that exceptions will likely not be granted.

Understanding, that safety is our outmost priority. Safety trumps all requests when we are deemed a construction zone during move-in. Any incident, big or small, requires formal reporting and will absolutely have an impact on all move-in.

Please remember, kids 16 and under are not permitted into the construction site during move-in. Please make alternate arrangements.
